Nov. 2021 – [Stephanie Williams](#), Registered Nurse and TikTok (19K followers) was diagnosed with Stage 3 Lung cancer. Click [here](#).

### My Take...

**COVID-19 mRNA vaccinated young people are coming down with turbo cancers.** There are so many for me to report, that I have to split up the cases over several substack articles.

**The most aggressive turbo cancers are leukemia, lymphoma and glioblastoma (brain). Of these, lymphoma is the most common. Leukemia kills the fastest (in some cases within hours of diagnosis).**

Then I'm seeing **late stage breast, lung and colon cancers** (most commonly). These are characterized by an “**accelerated course**”, as in the case of Randy Gonzalez with Stage 4 colon cancer where his doctors told him he had 2-5 years to live but he died in 8 months.

**These 21 social media stars have over 75 million subscribers and followers between them and reach 100s of millions of people. If even just a few of them spoke up, they could blow up the COVID-19 vaccine propaganda and narrative.**

The tragedy is that the very platforms they are famous on: **Youtube, Instagram, TikTok, do not allow ANY discussion of COVID-19 vaccine dangers & injuries.**

And since not a single one of the 20 social media influencers have spoken up about the dangers of COVID-19 vaccines, I have to assume that they are completely unaware of the possible link.

That means they cannot, and will not, get any kind of cancer treatment option that could save or prolong their lives. And this is tragic.

I wanted to provide these videos, where they share their diagnosis in their own words. Some of these videos are difficult to watch.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
